# MATERIAL SAFETY DATA SHEET

(ACCORD)

## PRODUCT DESCRIPTION

**SECTION 1.** 

MATERIAL IDENTIFICATION

#### Our Grating and frame are functional, attractive and economical solution to exterior and interior drainage problem provides

a dynamic and contemporary appearance to complement today's architectural spaces. MATERIAL USED

#### MANUFACTURER'S NAME

SAKSHI INNOVATIONS PRIVATE LIMITED

BRASS: Brass is an alloy made primarily of copper and zinc.

## Gurudwara Somasar Road, P.O. Sahnewal, Village TIBBA, Distt. LUDHIANA-141 120 (INDIA)

**SECTION 2.** COMPOSITION / INFORMATION ON INGREDIENTS

symptoms such as fever and chills may occur a few hours after excessive exposure. Dust and fumes can cause irritation to the skin with itching, dermatitis may occur.

COPPER & ZINC (as Oxide): Inhalation overexposure to copper or zinc oxide may

nervous system, reproductive systems, muscles and joints. IARC lists lead and its

Inhalation overexposures may cause a benign pneumoconiosis (stannosis) with

Flush eyes with plenty of water for at least 15 min, holding eyes lids open.

Maintain good personal hygiene. Wash affected area with mild soap and water.

Rare in industry. Dust may irritate mouth and gastrointestinal tract. If ingested,

Not applicable for solid product. Use extinguishers appropriate for surrounding

metal fire – use a use Class D fire extinguishers (dry powder or sand) for fires

Operations with the potential for generating high concentrations of airborne particulates should be evaluated and controlled as necessary. Practice good

Use controls as appropriate to minimize exposure to metal fumes and dusts

Provide general or local exhaust ventilation systems to minimize airborne concentrations. Local exhaust ventilation is preferred because it prevents contamination dispersion into the work area by controlling it at its source.

Seek professional advice prior to respirator selection and use. Follow OSHA

Use protective clothing, gloves and safety glasses or goggles as required for

Under normal conditions of storage and use, hazardous reactions will Not Occur.

According to our experience and information the product has no harmful effects

The product is practically insoluble in water. In views of its consistency and insolubility in water, no ecological Problems are to be expected if the product is

Brass scrap should be recycled whenever possible. Product dusts and fumes from

respirator regulations (29 CFR 1910.134) and, if necessary, wear a NIOSH-approved

Respiratory system, kidney, liver, central nervous system, eyes and skin.

EFFECTS OF ACUTE EXPOSURE

HAZARDS IDENTIFICATION

**ROUTES OF ENTRY:** None in its solid state .High concentrations of dust and fumes may cause irritation to the eyes. Inhalation of metal fumes and dusts generated during welding, burning, grinding or machining may cause irritations of the respiratory tract. Flu-like

Brass allous in their usual form and under normal conditions do not present an inhalation, inaestion or contact health hazard or fire or explosion hazard. Operations such as welding, brazing, burning, grinding, cutting, heat treating, machining or similar

cause metal fume fever characterized by fever and chills (i.e. flu-like symptoms) TO MATERIAL which appear 4-6 hours after exposure with no longterm effects.

EFFECTS OF CHRONIC EXPOSURE TO MATERIAL LEAD Chronic exposures may cause lead poisoning that can affect the digestive system,

inorganic compounds under its Group 2B category -

few or no symptoms, which is reported not to be disabling.

"possibly carcinogenic to humans".

SECTION 4. FIRST AIDS MEASURES

Seek medical attention if eyes irritation persist.

## Seek medical attention if eyes irritation persist.

Remove to fresh air, breathing and presence of pulse. If necessary consult a physician immediately.

FIRE FIGHTING MEASURES SECTION 5.

materials.

Non-flammable. Will not support combustion.

seek medical attention promptly.

HAZARDOUS COMBUSTION PRODUCTS At temperatures above the melting point, fumes containing metal oxides and other alloying elements may be liberated.

STABILITY

PROTECTIVE CLOTHING/EQUIPMENT

**VENTILATION** 

UNUSUAL FIRE HAZARDS Finely divided particles or dusts such as those produced during grinding may present an explosion hazard, and should be treated as a Class D combustible

involving powders or dusts.

SECTION 6. ACCIDENTAL RELEASE MEASURES Minimal problems with spills of this product would be expected to occur because of its solid form.

Do not use water on molten metal.

#### housekeeping. Avoid breathing metal fume and/or dust. STORAGE REQUIREMENTS Store away from acids and incompatible materials.

**SECTION 7. HANDELING & STORAGE** 

**EXPOSURE CONTROLS/ PERSONAL PROTECTIONS** SECTION 8.

during handling operations.

#### ADMINISTRATIVE CONTROLS Do not use compressed air to clean-up spills.

respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen.

welding, burning, sawing, brazing, grinding or machining operations. Do not continue to use gloves or work clothing that has become saturated or soaked through with oil coating. Wash skin that has been exposed to oil with soap and

water or waterless hand cleaner.

**REACTIVITY AND STABILITY** 

TOXICOLOGICAL INFORMATION

**REACTIONS** 

properly handled.

The product is stable.

#### on health if properly handled. SECTION 12. **ECHOLOGICAL INFORMATION**

**DISPOSAL CONSIDERATIONS** SECTION 13.

#### processing operations should also be recycled, or classified by a competent environmental professional and disposed of in accordance with applicable Federal, state or local regulations.

CONTAINER CLEANING AND DISPOSAL : Follow applicable Federal, state or local regulations. Observe safe handling

#### SECTION 15. **REGULATORY INFORMATION**

SECTION 14. TRANSPORT INFORMATION

: The product as a whole is not listed. However, individual components of the product are listed.

Material is not listed as a hazardous substance for any mode of transportation.

## REMARKS

Product is in compliance with substance of Very High Concern (SVHC) i.e. ≤ 0.1 %w/w as per the candidate list promulgated by the European Chemicals

**DISCLAIMER** 

Agency (ECHA) which are defined in Article 57 of REACH Regulation (EC1907/2006) checked by Tuv-Nord Group.
