MATERIAL SAFETY DATA SHEET

(GLAZE INFINIT)

PRODUCT DESCRIPTION

SECTION 1.

MATERIAL IDENTIFICATION

Our Grating and frame are functional, attractive and economical solution to exterior and interior drainage problem provides

a dynamic and contemporary appearance to complement today's architectural spaces. MATERIAL USED

BRASS: Brass is an alloy made primarily of copper and zinc. MANUFACTURER'S NAME

SAKSHI INNOVATIONS PRIVATE LIMITED

Gurudwara Somasar Road, P.O. Sahnewal, Village TIBBA, Distt. LUDHIANA-141 120 (INDIA)

REMARKS

SECTION 16.

EFFECTS OF ACUTE EXPOSURE

HAZARDS IDENTIFICATION

ROUTES OF ENTRY: None in its solid state .High concentrations of dust and fumes may cause irritation to the eyes. Inhalation of metal fumes and dusts generated during welding, burning, grinding or machining may cause irritations of the respiratory tract. Flu-like symptoms such as fever and chills may occur a few hours after excessive exposure.

Brass allous in their usual form and under normal conditions do not present an inhalation, inaestion or contact health hazard or fire or explosion hazard. Operations such as welding, brazing, burning, grinding, cutting, heat treating, machining or similar

cause metal fume fever characterized by fever and chills (i.e. flu-like symptoms) TO MATERIAL which appear 4-6 hours after exposure with no longterm effects.

EFFECTS OF CHRONIC EXPOSURE TO MATERIAL LEAD Chronic exposures may cause lead poisoning that can affect the digestive system, nervous system, reproductive systems, muscles and joints. IARC lists lead and its

inorganic compounds under its Group 2B category -

few or no symptoms, which is reported not to be disabling.

"possibly carcinogenic to humans".

SECTION 4. FIRST AIDS MEASURES **EYES** Flush eyes with plenty of water for at least 15 min, holding eyes lids open.

Seek medical attention if eyes irritation persist.

SKIN Maintain good personal hygiene. Wash affected area with mild soap and water. Seek medical attention if eyes irritation persist.

physician immediately.

Rare in industry. Dust may irritate mouth and gastrointestinal tract. If ingested, seek medical attention promptly.

FLAMMABILITY CLASSIFICATION Non-flammable. Will not support combustion. MEANS OF EXTINCTION Not applicable for solid product. Use extinguishers appropriate for surrounding

alloying elements may be liberated.

involving powders or dusts.

materials.

UNUSUAL FIRE HAZARDS Finely divided particles or dusts such as those produced during grinding may present an explosion hazard, and should be treated as a Class D combustible

HAZARDOUS COMBUSTION PRODUCTS

FIRE FIGHTING MEASURES

SECTION 6. ACCIDENTAL RELEASE MEASURES

Minimal problems with spills of this product would be expected to occur because of its solid form.

Do not use water on molten metal.

particulates should be evaluated and controlled as necessary. Practice good housekeeping. Avoid breathing metal fume and/or dust.

SECTION 7. HANDELING & STORAGE

EXPOSURE CONTROLS/ PERSONAL PROTECTIONS SECTION 8.

during handling operations.

Store away from acids and incompatible materials.

contamination dispersion into the work area by controlling it at its source. ADMINISTRATIVE CONTROLS Do not use compressed air to clean-up spills.

respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen.

welding, burning, sawing, brazing, grinding or machining operations. Do not continue to use gloves or work clothing that has become saturated or soaked through with oil coating. Wash skin that has been exposed to oil with soap and water or waterless hand cleaner.

PHYSICAL PROPERTIES OF FLOOR GRATING WITH FRAME

HARDNESS (HV5) 135 SECTION 10. **REACTIVITY AND STABILITY**

8.5

REACTIONS TOXICOLOGICAL INFORMATION SECTION 11.

on health if properly handled.

The product is stable.

The product is practically insoluble in water. In views of its consistency and insolubility in water, no ecological Problems are to be expected if the product is properly handled.

ECHOLOGICAL INFORMATION

DISPOSAL CONSIDERATIONS Brass scrap should be recycled whenever possible. Product dusts and fumes from processing operations should also be recycled, or classified by a competent

environmental professional and disposed of in accordance with applicable

Material is not listed as a hazardous substance for any mode of transportation.

Product is in compliance with substance of Very High Concern (SVHC)

i.e. ≤ 0.1 %w/w as per the candidate list promulgated by the European Chemicals

Federal, state or local regulations. CONTAINER CLEANING AND DISPOSAL : Follow applicable Federal, state or local regulations. Observe safe handling

SECTION 14. TRANSPORT INFORMATION

SECTION 15. **REGULATORY INFORMATION OSHA REGULATIONS** : The product as a whole is not listed. However, individual components of the

product are listed.

Agency (ECHA) which are defined in Article 57 of REACH Regulation (EC1907/2006) checked by Tuv-Nord Group.
